Labor Market Information collects and analyzes information about employment in the State of Colorado. Data about industry employment and wages, occupation employment and wages, and both current and future demand for workers, are compiled and studied.

LMI Gateway replaces the work of multiple web sites in delivering the latest in labor market information and employer assistance to customers, staff, analysts, and researchers. Introduced in September 2006, Gateway delivers specific labor market information to meet the needs of all levels of users.
